

HELIUM, COMPRESSED Safety Data Sheet

1. IDENTIFICATION			
Product identifier Product Name	HELIUM, COMPRESSED		
Other means of identification Safety data sheet number UN/ID no. Trade name	LIND-P060 UN1046 LASER Helium; LASER Helium Ultra; Helium Lasershield 4.7, Helium Lasershield GR5.0		
Recommended use of the chemical and	restrictions on use		
Recommended Use Uses advised against	Industrial and professional use. Consumer use		
Details of the supplier of the safety data Linde Gas North America LLC - Linde Mere 200 Somerset Corporate Blvd, Suite 7000 Bridgewater, NJ 08807 Phone: 908-464-8100 www.lindeus.com			
Linde Gas Puerto Rico, Inc. Road 869, Km 1.8 Barrio Palmas, Catano, PR 00962 Phone: 787-641-7445 www.pr.lindegas.com			
Linde Canada Limited 5860 Chedworth Way Mississauga, Ontario L5R 0A2 Phone: 905-501-2500/905-501-1700 www.lindecanada.com			
* May include subsidiaries or affiliate com	panies/divisions.		
For additional product information contac	t your local customer service.

2. HAZARDS IDENTIFICATION

Classification

OSHA Regulatory Status

This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200).

Gases under pressure	Compressed gas
Simple asphyxiants	Yes

Label elements

Signal word

Warning

Hazard Statements Contains gas under pressure; may explode if heated May displace oxygen and cause rapid suffocation

Precautionary Statements - Prevention Do not handle until all safety precautions have been read and understood Use and store only outdoors or in a well ventilated place Use a backflow preventive device in piping Use only with equipment rated for cylinder pressure Close valve after each use and when empty

Precautionary Statements - Response IF INHALED: Remove person to fresh air and keep comfortable for breathing. Get medical attention/advice.

Precautionary Statements - Storage Protect from sunlight when ambient temperature exceeds 52°C/125°F

Hazards not otherwise classified (HNOC) Not applicable

Intentional inhalation of helium balloon gas can cause asphyxiation, lung damage, and death.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical Name	CAS No.	Volume %	Chemical Formula
Helium	7440-59-7	>99	Не

4. FIRST AID MEASURES

Description of first aid measures	
General advice	Show this safety data sheet to the doctor in attendance.
Inhalation	Remove to fresh air and keep comfortable for breathing. If breathing is difficult, give oxygen. If breathing has stopped, give artificial respiration. Get medical attention immediately.
Skin contact	None under normal use. Get medical attention if symptoms occur.
Eye contact	None under normal use. Get medical attention if symptoms occur.
Ingestion	Not an expected route of exposure.
Self-protection of the first aider	RESCUE PERSONNEL SHOULD BE EQUIPPED WITH SELF-CONTAINED BREATHING APPARATUS.
Most important symptoms and effect	s, both acute and delayed
Symptoms	Simple asphyxiant. May cause suffocation by displacing the oxygen in the air. Exposure to oxygen-deficient atmosphere (<19.5%) may cause dizziness, drowsiness, nausea, vomiting, excess salivation, diminished mental alertness, loss of consciousness and death. Exposure to atmospheres containing 8-10% or less oxygen will bring about unconsciousness without warning and so quickly that the individuals cannot help or protect themselves. Lack of sufficient oxygen may cause serious injury or death.
Indication of any immediate medical	attention and special treatment needed
Note to physicians	Treat symptomatically.

5. FIRE-FIGHTING MEASURES

Suitable extinguishing media

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Unsuitable extinguishing media None.

Specific extinguishing methods Continue to cool fire exposed cylinders until flames are extinguished. Damaged cylinders should be handled only by specialists.

Specific hazards arising from the chemical

Non-flammable gas. Cylinders may rupture under extreme heat.

Protective equipment and precautions for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, NIOSH (approved or equivalent) and full protective gear.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal precautions Evacuate personnel to safe areas. Ensure adequate ventilation, especially in confined areas. Monitor oxygen level. Wear self-contained breathing apparatus when entering area unless atmosphere is proved to be safe.

Environmental precautions

Environmental precautions Prevent spreading of vapors through sewers, ventilation systems and confined areas.

Methods and material for containment and cleaning up

LIND-P060 HELIUM, COMPRESSED		Revision Date	15-May-2018	
Methods for containment		ve, contact the appr		s can be done without risk. If leak is ncy telephone number in Section 1
Methods for cleaning up	Return cylinder to Linde or ar	n authorized distribu	itor.	
	7. HANDLING A	AND STORAG	E	
Precautions for safe handling				
Advice on safe handling	balloons. DO NOT ALLOW CHI	ILDREN OR UNQUALI HALATION OF HELIUI	FIED PEOPLE TO M CAN CAUSE SE	RIOUS LUNG DAMAGE OR DEATH. A
	even for short distance, use a by its valve protection cap. N cap openings. Doing so may remove over-tight or rusted o device in piping. Use only wi	a cart designed to tr lever insert an objec damage valve, caus caps. Use only with th equipment rated eriences any difficu	ansport cylinde ct (e.g. wrench, ing leak to occu adequate ventil for cylinder pre lty operating cy	or drop. When moving cylinders, rs. Never attempt to lift a cylinder screwdriver, pry bar,etc.) into valve rr. Use an adjustable strap wrench to lation. Use a backflow preventive ssure. Close valve after each use linder valve discontinue use and cked for leaks before use.
		inder without the o	wner's written o	bassenger vehicles. Never attempt consent. Never strike an arc on a al circuit.
	Only experienced and proper store and handle compressed pamphlet CGA-P1, Safe Hand	d gas cylinders in ac	cordance with (
Conditions for safe storage, including a	any incompatibilities			
Storage Conditions	be stored upright with valve "first in-first out" inventory sy	ncy exits. Keep at te protection cap in pl ystem to prevent fu ders should be segre	mperatures bel ace and firmly s Il cylinders from	truction away from heavily ow 52°C / 125°F. Cylinders should ecured to prevent falling. Use a being stored for excessive periods containers should be periodically
Incompatible materials	None known.	-

Appropriate engineering controls

Engineering Controls

Local exhaust ventilation to prevent accumulation of high concentrations and maintain air-oxygen levels at or above 19.5%. Oxygen detectors should be used when asphyxiating gases may be released. Systems under pressure should be regularly checked for leakages.

Individual protection measures, such as personal protective equipment

LIND-P060 HELIUM, COMPRESSED	Revision Date 15-May-2018
Eye/face protection	Wear safety glasses with side shields (or goggles).
Skin and body protection	Work gloves and safety shoes are recommended when handling cylinders.
Respiratory protection	Use positive pressure airline respirator with escape cylinder or self contained breathing apparatus for oxygen-deficient atmospheres (<19.5%).
General Hygiene Considerations	Handle in accordance with good industrial hygiene and safety practice.

9. PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and chemical properties

Physical state	Gas
Appearance	Colorless.
Odor	Odorless.
Odor threshold	Not applicable
рН	Not applicable
Melting/freezing point	Not applicable
Evaporation rate	Not applicable
Flammability (solid, gas)	Non-flammable gas
Lower flammability limit:	Not applicable
Upper flammability limit:	Not applicable
Flash point	Not applicable
Autoignition temperature	No data available
Decomposition temperature	No data available
Water solubility	Slightly soluble
Partition coefficient	No data available
Kinematic viscosity	Not applicable

Chemical Name	Molecular weight	Boiling	Vapor Pressure	Vapor density (air	Gas Density	Critical
		point/range		=1)	kg/m³@20°C	Temperature
Helium	4.00	-268.9 °C	Above critical	0.138	0.165	-267.9 °C
			temperature			

10. STABILITY AND REACTIVITY

<u>Reactivity</u> Not reactive under normal conditions

<u>Chemical stability</u> Stable under normal conditions.

Explosion data Sensitivity to Mechanical Impact No Sensitivity to Static Discharge No

None. None.

Possibility of Hazardous Reactions None under normal processing.

<u>Conditions to avoid</u> None under recommended storage and handling conditions (see Section 7).

Incompatible materials None known. Hazardous Decomposition Products None known.

11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure

Inhalation	Product is a simple asphyxiant.
Skin contact	No data available.
Eye contact	No data available.
Ingestion	Not an expected route of exposure.
Information on toxicological effects	
Symptoms	Simple asphyxiant. May cause suffocation by displacing the oxygen in the air. Exposure to oxygen-deficient atmosphere (<=19.5%) may cause dizziness, drowsiness, nausea, vomiting, excess salivation, diminished mental alertness, loss of consciousness and death. Exposure to atmospheres containing 8-10% or less oxygen will bring about unconsciousness without warning and so quickly that the individuals cannot help or protect themselves. Lack of sufficient oxygen may cause serious injury or death.
Delayed and immediate effects as well	as chronic effects from short and long-term exposure
Irritation Sensitization Germ cell mutagenicity Carcinogenicity Reproductive toxicity Developmental Toxicity STOT - single exposure STOT - repeated exposure Chronic toxicity Aspiration hazard	Not classified. Not classified. Not classified. This product does not contain any carcinogens or potential carcinogens listed by OSHA, IARC or NTP. Not classified. Not classified. Not classified. Not classified. Not classified. Not classified. Not classified.
Numerical measures of toxicity	

12. ECOLOGICAL INFORMATION

Ecotoxicity No known acute aquatic toxicity.

Persistence and degradability Not applicable.

Bioaccumulation No information available

13. DISPOSAL CONSIDERATIONS

Waste treatment methods

Disposal of wastes

Do not attempt to dispose of residual waste or unused quantities. Return in the shipping container PROPERLY LABELED WITH ANY VALVE OUTLET PLUGS OR CAPS SECURED AND VALVE PROTECTION CAP IN PLACE to Linde for proper disposal.

14. TRANSPORT INFORMATION

DOT

UN/ID no.	UN1046

TSCA - United States Toxic Substances Control Act Section 8(b) Inventory DSL/NDSL - Canadian Domestic Substances List/Non-Domestic Substances List EINECS/ELINCS - European Inventory of Existing Chemical Substances/European List of Notified Chemical Substances

US Federal Regulations

SARA 313

Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product does not contain any chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372.

SARA 311/312 Hazard Categories

Should this product meet EPCRA 311/312 reporting criteria at 40 CFR 370, refer to Section 2 of this SDS for appropriate classifications.

CERCLA

This material, as supplied, does not contain any substances regulated as hazardous substances under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302) or the Superfund Amendments and Reauthorization Act (SARA) (40 CFR 355). There may be specific reporting requirements at the local, regional, or state level pertaining to releases of this material.

Clean Air Act, Section 112 Hazardous Air Pollutants (HAPs) (see 40 CFR 61)

This product does not contain any substances regulated as hazardous air pollutants (HAPS) under Section 112 of the Clean Air Act Amendments of 1990.

CWA (Clean Water Act)

This product does not contain any substances regulated as pollutants pursuant to the Clean Water Act (40 CFR 122.21 and 40 CFR 122.42)

Risk and Process Safety Management Programs

This material, as supplied, does not contain any regulated substances with specified thresholds under 40 CFR Part 68. This product does not contain any substances regulated as Highly Hazardous Chemicals pursuant to the 29 CFR Part 1910.110.

US State Regulations

California Proposition 65

This product does not contain any Proposition 65 chemicals
